

After chat class reflection activity

This 5 minute plenary will help your class reflect on their learning after the chat. The question prompts are designed to facilitate discussion among your class.

There are 3 sets of questions. Choose the section that you would like to explore: **Careers understanding**, **Communication skills**, or **STEM knowledge**.

Discussion for all sections	HOW MANY DO?
Do you feel like you had anything in common with any of the engineers?	
Option 1: Careers understanding questions	HOW MANY DO/DID/ARE?
Did you discover a new career in STEM that you hadn't heard of before?	
Are you now more interested in a career in STEM than before our chat?	
Do you feel clearer on the qualifications you need to go into a STEM career?	
If you had to describe one of the engineers' jobs to a friend, how would you?	DISCUSSION ONLY
Option 2: Communication skills questions	HOW MANY DO/DID?
Do you feel more confident asking questions to engineers than you did before our chat?	
Do you feel that the engineers were interested in your questions?	
Do you feel that you had a conversation with an engineer involving more than 1 question?	
Did you discuss an answer that you received with someone else in the class?	
Would you have asked any of your questions differently? How?	DISCUSSION ONLY
Option 3: STEM knowledge questions	HOW MANY DO/DID?
Did you learn something that you didn't know before?	
Do you plan to find out more about something that was discussed in the chat?	
Do you better understand how the learning we do in class connects to how engineers work than you did before our chat?	
What surprised you during the chat?	DISCUSSION ONLY
